## GMI MISSION STATEMENT

**G**MI's mission is to conserve and develop a sustainable approach towards the entire spectrum of human activities in relation to their environment.

To do this, GMI evolved a working model that promotes public awareness and education through collection and dissemination of useful information associated with this recent upsurge in concern for the environment. And assist people in particular the local communities in conservation of scarce biodiversity, natural resources, habitat and fragile ecosystem, raising awareness of the value of Nigerian ecosystem and promoting the involvement of all sectors of the society and government in its management.

PLANTING FOR PEACE 2011 IN KADUNA

As well as technological solutions to problems such as solid waste, alternative energy, global warming, ozone depletion, desertification, oil spillage pollution and

ultimate climate change.

GMI's secretariat is based in Abuja and presently has a field project in different locations in FCT, Kaduna and Nasarawa State. There are also long term plans to launch development projects in other states of Nigeria.

GMI is a very practical organization working across all sectors of the society with special programme for local communities involving the use of participatory tools (PRA & PLA) in sustainable livelihoods planning and community driven development process through grassroots capacity mobilisation and development processes, where local communities are empowered to take charge of their own development agenda.

Also GMI has a special eco programs for youths in primary, secondary and tertiary Institutions students, titled; 'Going Green' this program aim at promoting environmental awareness and education among the young generation so as to inculcate environmental ethics and values in their mind.

GMI has a strong dedicated board of trustees from a wide cross section of disciplines and backgrounds in conservation, environment, agriculture, commerce etc.

GMI also has a competent and hardworking staff and a pool of resource persons and consultants and volunteers who are called upon to work depending on the project at hand.
